PRINT FREELY WITHOUT WORRYING ABOUT COST OF INK

High-speed printing

UP TO **8,300 B&W** PAGES AND **7,700 COLOUR** PAGES

PIXMA refillable ink tank printers come with so much ink, they let you print freely without ever having to worry about the cost of printing ever again! The bundled ink bottles deliver up to 8,300 monochrome* and 7,700 full-colour documents, making these printers ideal for homes and offices.

*Economy Mode

LARGE TANKS, HIGH VOLUME PRINTING

NO NEED TO REPLACE INK CARTRIDGES

ERROR-FREE, SPILL-RESISTANT REFILLING

Integrated Ink Tank Design

The integrated ink tanks lead to a more compact body and smaller footprint. The see-through ink tank design also allows remaining ink levels to be monitored easily.

Quick and Mess-Free Ink Refilling

The ink bottles are anti-drip* and spill-resistant to keep tables and documents free from unintended ink smears during refilling. Unique nozzle-and-receptacle identifiers on both bottles and printer ink tanks mean users will never suffer the consequences of accidentally filling inks into the wrong colour tanks.

*Applicable to selected models only.

Easy Maintenance and Extended Lifetime Usage

With a replaceable print head* and maintenance cartridge* design, users can look forward to minimum downtime and maximum productivity, and extended printer lifetime.

*Applicable for selected models and regions only.

Replaceable ink maintenance cartridge

99% Monochrome Printing
– with the occasional dash of colour if needed

Canon GM series printers are versatile ink tank printers instilled with the sole mission to printing large volumes of text-based documents in black-and-white at low-cost, without the need to ever spend on coloured inks. But unlike other monochrome printer designs on the market, the printers offer the option to still print in colour on occasion – by inserting a colour ink cartridge only when needed.
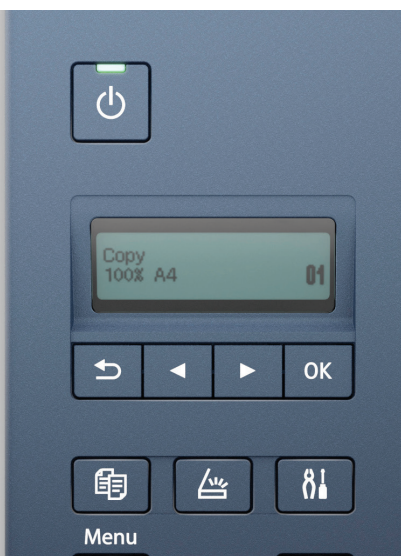

Guided Instructions on 2-Line LCD Panel

2 line LCD

A 2-line text LCD* display with guided instructions makes device operation and settings easy without the need to refer to the user manuals.

*Applicable to selected models only.

Large Paper Cassettes for Less Frequent Reloading

Load up to 350 paper sheets* for heavy print jobs, eliminating the need to reload frequently. A viewing window at the front of the paper cassette allows monitoring of remaining paper levels without the need to pull out the cassette for inspection.

35-Sheet Auto Document Feeder
for Hands-Free Scanning and Copying

Up to 35 sheets of document originals can be loaded for batch scanning and copying, eliminating the need for repeated opening and closing of the scanner lid.

*Applicable to selected models only.

Versatile Printing on Plain and Glossy Papers

Pigment black ink delivers high contrast text legibility and fine lines, while coloured dye inks combine to great effect for vivid and photo realistic images on glossy papers up to A4* size.

Smart Power Management

An Auto Power ON and OFF feature automatically puts the printer into sleep mode when not in use for some time. The printers also wake up from sleep mode almost immediately when a print job is received.
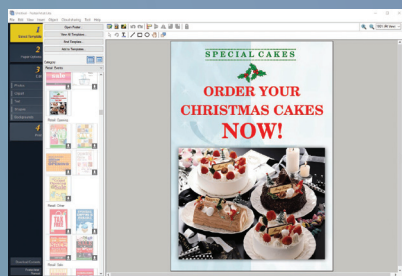

SOLUTIONS

Personalised Creations
with Easy-PhotoPrint Editor App

Delve into the extensive template collection available for collages, calendars, stickers, business cards and ID photos. Bring your creative ideas to print in just a few steps.

Get Creative
with PosterArtist Lite

Canon's **PosterArtist Lite** is a free software that helps to create eye-catching posters, brochures, flyers, and even menus easily. Take complete in-house design control with a user-friendly interface, with hundreds of free templates and clipart to kick-start your projects.

Mobile Printing Solutions
with Canon PRINT Inkjet/SELPHY App

The **Canon PRINT Inkjet/SELPHY** app lets you print, scan, and copy directly from your mobile device, view remaining ink levels, connect the printer to popular cloud services, and even make changes to your printer settings remotely.

FUNCTIONS:

Photo and Document Printing

Print directly from your mobile device.

Smartphone Copy

Capture a document image with your mobile device, with the edges detected automatically and cropped before printing.

Scan to Mobile Devices

Scan directly to your mobile device or iCloud.

Create Photo Items

Quick access to Easy-PhotoPrint Editor app.

*Applicable to selected models only.

Refillable Ink Tank Printers for Documents and All-Purpose Printing

Upgrade your productivity with large-capacity paper cassette, full network connectivity and auto duplex printing.

Specifications are subject to change without notice.

*1   Ink droplets can be placed with a pitch of 1/4,800 inch at minimum.

*2   Document print speeds are the averages of ESAT (Word, Excel, PDF) in Office Category Test for the default simplex mode, ISO/IEC 24734.
Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used, etc.

*3   Paper types NOT supported for borderless printing are as follows: Envelope, High Resolution Paper, T-Shirt Transfer, Photo Stickers.

*4   TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager comes with the operating system.

*5   Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard. Optical resolution scan is available, only when you use TWAIN Driver.

*6   Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183.
Copy speeds (ADF) are ESAT of copy in sequence, ISO/IEC 24735.
Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm-up time.

*7   Black & white document fax transmission speed is based on default setting using ITU-T No. 1 chart. Colour document fax transmission speed is based on default setting using Canon Colour Fax Test Sheet. Actual transmission speed may vary depending on document complexity, fax settings at receiving end and line conditions, etc.

*8   Page count is based on No.1 chart or Canon Fax Standard Chart No. 1.

*9 Operation can only be guaranteed on a PC with pre-installed Windows 7 or later.

*10 Declared yield value in accordance with ISO/IEC 24711 (for A4) using ISO/IEC 24712 test file, and ISO/IEC 29102 (for 4 x 6") using ISO/IEC 29103 test file. Value obtained by continuous printing.

*11 The economy mode reduces the black ink consumption by lowering the density, up to 38% more pages than the standard mode can be printed.

*12 This printer is a monochrome printer. Print colour document with optional colour cartridge. Once the installed colour cartridge is depleted, please replace with a new colour cartridge or a contact protector has to be installed.

*13 Black ink is not used when pinting under this condition. However, a minimal amount of black ink is used for maintenance purpose.

NOTE:

All printers work in Operating Environment of Temperature: 5 - 35°C; Humidity: 10 - 90% RH (no dew condensation).

The performance of the printer may be reduced under certain temperature and humidity conditions.

All printers work in Storage Environment of Temperature 0 - 40°C; 5 - 95% RH (no dew condensation).

For the temperature and humidity conditions of papers such as photo paper, refer to the paper's packaging or the supplied instructions.
